## Summary

---

Aspiring Cybersecurity Professional with strong fundamentals in ethical hacking, networking, and system security. Skilled in tools like Kali Linux, Wireshark, Nmap, Burp Suite, and John the Ripper. Proficient in Python, Java, and C with database knowledge in MySQL. Passionate about solving security challenges and continuously learning in the evolving field of cybersecurity

## Education

---

**Poornima University**, BCA-CyberSecurity 2024 – 2027  
CGPA: 6.84 (up to the last semester)

**Kendriya Vidhyalaya**, 12th CBSE Board 2023 – 2024  
Percentage: 78%

## Skills

---

- **Languages:** Java, Python, JavaScript, SQL
- **Web & Tools:** HTML5, CSS Cybersecurity
- **Tools:** Kali Linux, Wireshark, Nmap, Burp Suite, John the Ripper Frameworks: React.js, Next.js
- **Core Concepts:** DSA, Web Development, OOPs Other
- **Tools:** Git, Linux, Docker

## Projects

---

- Password Cracking with John the Ripper – Demonstrated password security testing using hash cracking.
- Network Scanning & Analysis – Conducted port scanning and packet analysis with Nmap & Wireshark.
- Web Vulnerability Testing – Tested websites for XSS & SQL Injection using Burp Suite
- 

## Certifications

---

- Google Cybersecurity Professional Certificate – In Progress

## Achievements

---

Solved 100+ coding problems on HackerRank & GeeksforGeeks.

Participated in CTF challenges to practice real-world security scenarios.

Demonstrated ethical hacking practices such as port scanning & vulnerability testing
